Heroin (no other drugs)	28
Heroin and Other Drugs (excluding fentanyl)	12
Heroin and Fentanyl	34
Other Opiates/Opioids	58
Total Deaths Caused By Opiates/Opioids	351
Other drugs	34
Total Drug Deaths	385*

**\* There are currently 45 cases from 2015 that are "Pending Toxicology"**

*It can take 2 to 3 months to receive the toxicology results and for our pathologist to review them and determine the cause of death. The availability of the pathologist to review the reports is dependent on the autopsy schedule, court appearances, etc. A few cases may be finalized one week and numerous cases finalized the next week which would make it appear as if a substantial increase has occurred from one week to the next but these are deaths that occurred weeks or even months earlier.*

Drug data changes daily as pending cases become finalized. Please email Kim Fallon if you have questions regarding the NH OCME Drug Data.  
kim.fallon@doj.nh.gov

If you want to receive an email, approx. every two weeks as the drug data is tabulated, please send an email to kim.fallon@doj.nh.gov. **PLEASE put "request for regular drug data," in the subject line.** We will add you to our email list and automatically send the current data.
